

The Itqan Way

One principle holds everything together — *Itqan*: excellence in whatever your hands turn to, performed as worship. From that centre, **Mind** (*‘ilm*), **Hands** (*‘amal*) and **Heart** (*iman*) become one journey, not three subjects. Knowledge becomes action, action is done with excellence, and the purpose of reading the world (*lqra*) is to flourish and serve — which is also the project-based-learning arc of learn → apply → reflect → contribute.
